

## AIR 3 – Siren Activator

Air 3 Siren Activator

Place the drone upside down

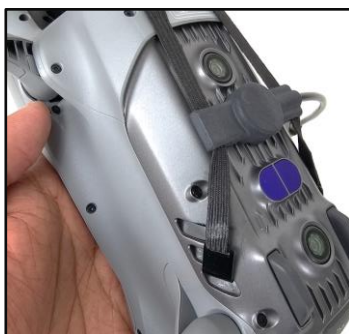

Align the Activator to the drone's bottom light and hold it with one hand in its place as shown in the image

By using the other hand, hook the hooks to the top side of the Drone as shown in the image

Once the top hooks are hooked to the position, pull the bottom hooks and hook them to the third ventilation pocket on both the left and right side of the Drone, as shown in the image

Once the hooks are placed in the position, the Activator will be ready to use

Plug in the USB C cable to the Siren Herder.

Siren Herder for Air 3 is ready to fly.
