

M3 – Siren Activator

M3 Siren Activator

Place the drone upside down

Using the hand, hook the activator to the top side of the Drone as shown in the image

Once the top hooks are hooked to the position, pull and push the bottom hooks down by aligning the two fins of the Activator to the slots in the Drone.

Once the two fins and locking are placed in the position, the Activator will be ready to use

Plug in the USB C cable to the Siren Herder.

Siren Herder for M3 is ready to fly.

Note; To find the User Manual for Siren Herder, please check <https://tundradrone.com/support/siren-herder>
